

# **Intermountain Adaptive Snowboard Certification Process**

**Adaptive Snowboard exams will be scheduled if four or more people are interested in attending.**

## **Level 1**

1. Become a member of PSIA/AASI
2. Take and pass AASI Level 1 Assessment (2 day assessment)
3. Complete the Level 1 Take Home Exam covering all three modules. Turn the original exam into the examiner on exam day.
4. Take and pass the Stand Up adaptive snowboard teaching module at a L1 standard. These teaching assessment days will include on-snow assessment of teaching and riding skills, and an interview to assess general knowledge. (1 day assessment)

## **Level 2**

1. Obtain Level 1 ASB certification.
2. Take and pass AASI Level II Assessment
3. Take and pass two adaptive snowboard teaching days, focusing on all three modules. These teaching assessment days will include on-snow assessment of teaching and riding skills, ride the equipment segment, and an interview to assess general knowledge.

The modules are as follows:

- a. Stand Up
- b. Sit Down
- c. VI/ID

## **Level 3\***

1. Obtain Level 2 ASB certification.
2. Complete 24 hours of practice riding in the adaptive equipment at your home resort. 8 hours each of mono skiing and bi skiing. 4 hours each of Rider Bar/1&2 outrigger practice. All hours must be documented on the Ski/Ride the Equipment Log, signed by your Ski School Director, and turned in with your Event Sign Up form two weeks prior to your first assessment day.
3. Pass the AASI Level III or an Adaptive LIII Ride Evaluation Day
4. Attend a one-day Level AD SB III Teaching Prep Clinic
5. Take and pass a comprehensive exam containing elements of all THREE modules. These teaching assessment days will include on-snow assessment of teaching and riding skills and an interview to assess general knowledge.

\* Offered upon demand, 2 person minimum
