

Intermountain Adaptive Snowboard Certification Process 2013-2014 Season

Adaptive Snowboard exams will be scheduled if four or more people are interested in attending.

Level 1

1. Become a member of PSIA/AASI
2. Take and pass AASI Level 1 Assessment or a Ride Assessment day
3. Complete the Level 1 Take Home Exam covering all three modules. Turn the original exam into the office two week prior to your first assessment day. Faxes will not be accepted.
4. Take and pass ONE adaptive snowboard teaching module at a L2 standard. Each module is one day. These teaching assessment days will include on-snow assessment of teaching and riding skills, and an interview to assess general knowledge. The modules are as follows:
 - a. Stand Up
 - b. Sit Down
 - c. VI/ID

Level 2

1. Obtain Level 1 ASB certification.
2. Pass the AASI Level II or an Adaptive LII Ride Evaluation Day.
3. Take a Level 1/2 Prep Clinic
4. Take and pass the remaining TWO modules. These teaching assessment days will include on-snow assessment of teaching and riding skills, and an interview to assess general knowledge.

Level 3*

1. Obtain Level 2 ASB certification.
2. Complete 24 hours of practice riding in the adaptive equipment at your home resort. 8 hours each of mono skiing and bi skiing. 4 hours each of Rider Bar/1&2 outrigger practice. All hours must be documented on the [Ski/Ride the Equipment Log](#), signed by your Ski School Director, and turned in with your Event Sign Up form two weeks prior to your first assessment day.
3. Pass the AASI Level III or an Adaptive LIII Ride Evaluation Day

4. Attend a one-day AASI Teaching Prep Clinic
5. Take and pass a comprehensive exam containing elements of all THREE modules. These teaching assessment days will include on-snow assessment of teaching and riding skills and an interview to assess general knowledge.

** Offered upon demand, 2 person minimum*
