Our division deserves ambitious and motivated leaders to generate new ideas and bring about positive change. I highly believe that the intermountain division creates our nations most qualified and skilled snow sports instructors.

My goal is to help build our community of instructors and explore additional scholarship opportunities for all.

I started my PSIA-AASI career my freshman year of college. At first it was an opportunity to get a free season pass but never would I thought it'd take me on a 8 year long journey.

Advice from an examiner on personal growth: If the version of you from 5 years ago could see you right now, they'd be so proud. Keep Going.
