

I started in the ski industry while attending college in Minnesota. I worked in a ski shop all through my school years, as a way to pay for my education, all the while knowing that I would eventually move west to fulfill a dream of spending one season as a real ski bum. That was 40 years ago and I'm still in the industry. I taught skiing and snowboarding in Vail, attaining my L3 Certification in 1990, became an Examiner in PSIA-RM, then found my way to Utah via Solitude and became an Examiner here as well. I later went to work at Park City as a Training Supervisor and am currently holding the position of Product Manager. Six years ago, I was elected to my first term on the Board of Directors. I am now finishing my second term and would like your vote to continue for a third term. We have accomplished a lot during those six years, building on the hard work of those who came before us. We have made the Intermountain Region financially much more viable as well as reorganized our governance. We are also leading the way in the Alignment Project with the other Regions, standardizing our exam processes and National Standards of certification. We are not there yet. I would like the opportunity to see these projects as well as some locally focused projects through to fruition. Thank you for your support.
